

AK-55 BOOM ARM STAND

Please read the instructions carefully before use

1. Product List

1. 3/8" to 1/4" inch adapter

4. Allen key

7. Heightening rod

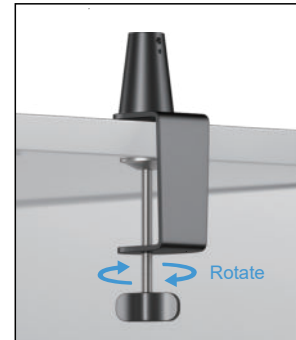

2. 5/8" inch adapter

5. Microphone stand

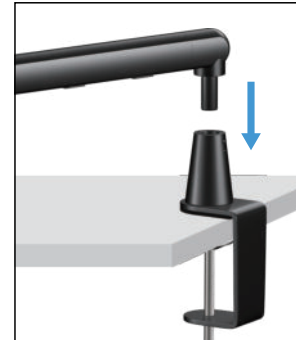

3. Washer nut

6. Stand base

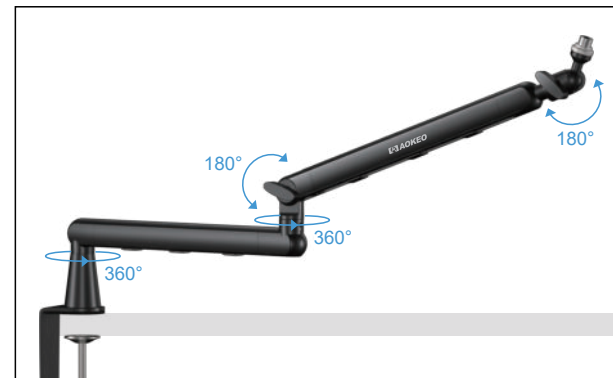

2. Installation

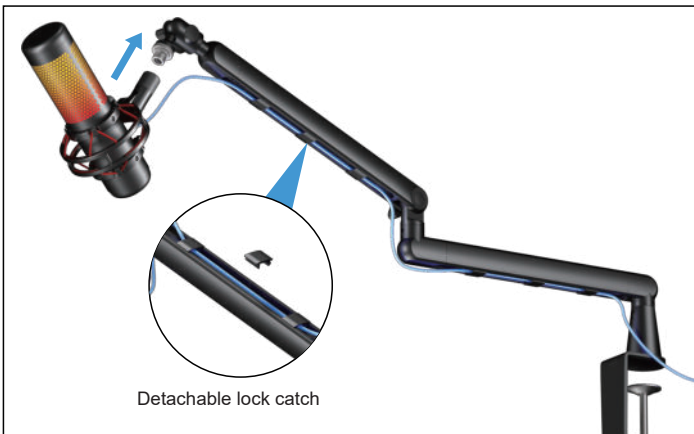

1. Put the stand base on the table and rotate it to tighten.

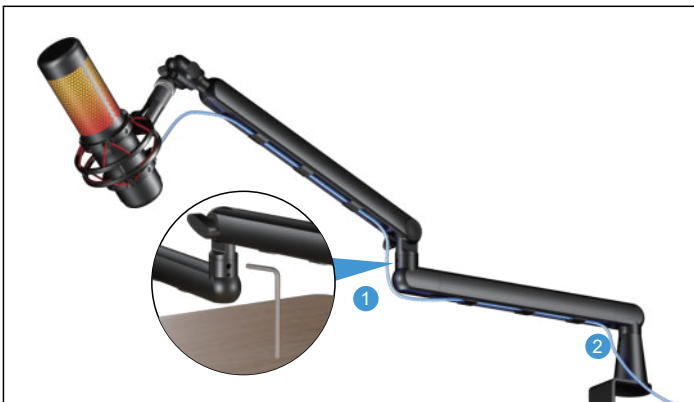

2. Fix the microphone stand on the base like the picture.

3. Rotate the screws, adjust the stand angle to a suitable position.

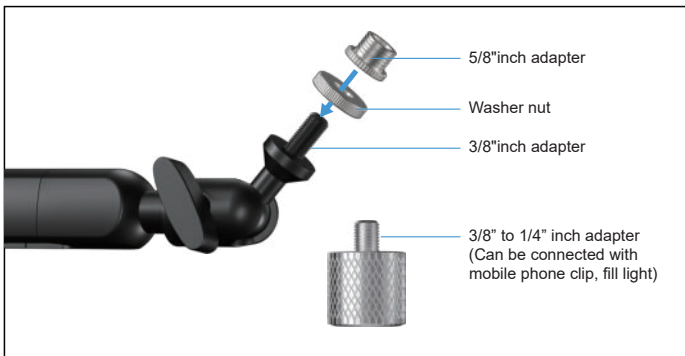

4. Install your microphone as shown in the figure, and then install your microphone cable into the storage slot. (The microphone is not included in the product)

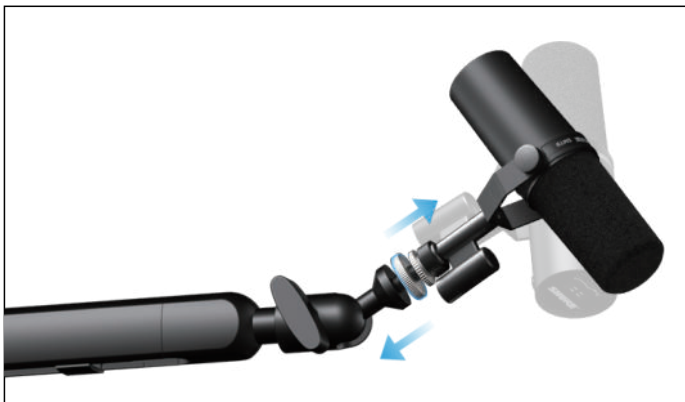

5. According to your own needs, you can use a hexagonal key to lock the holes at positions 1 and 2.

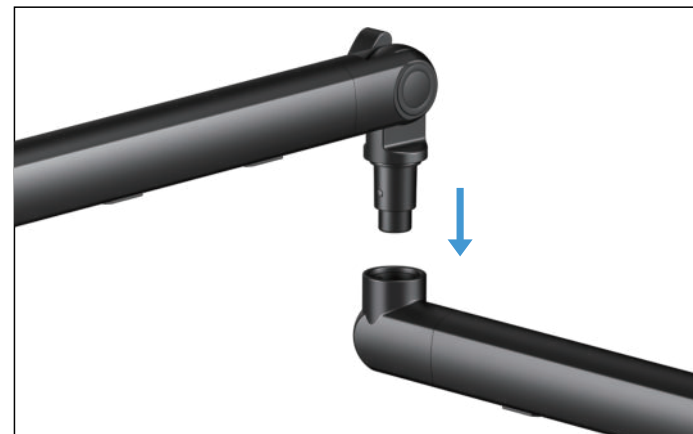

3. NOTE

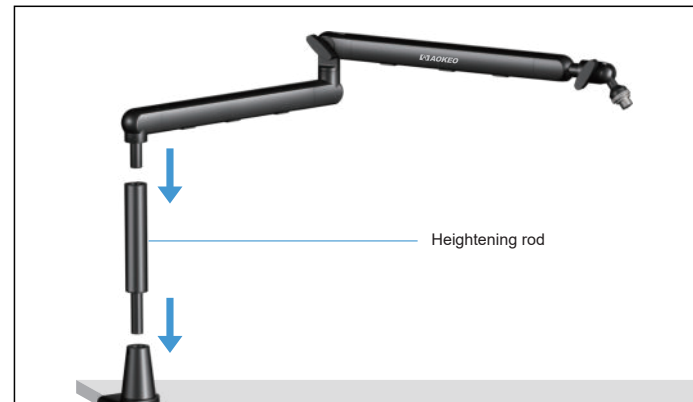

1. Detachable 5/8 inch adapter with 3/8 inch adapter, suitable for more microphones.

2. The washer nut can move back and forth, which can lock the microphone shock mount absorber to your desired angle.

3. It can be disassembled here and turned upside down.

4. A heightening rod can be added to the base for use as required.
