

1. 5/8 adapter
2. Washer nut
3. Microphone stand
4. Stand base

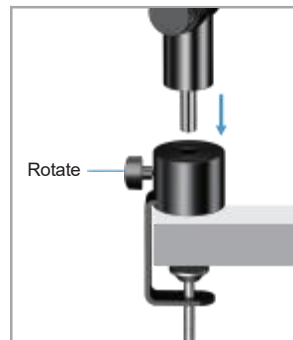

-1-

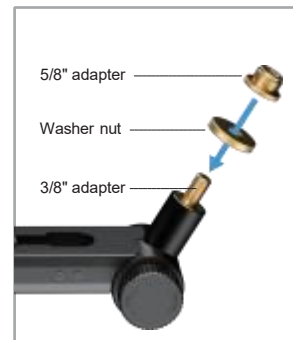

1.Put the stand base on the table and rotate it to tighten.

3. Rotate the screws, adjust the stand angle to a suitable position.

2. Fix the microphone stand on the base and rotate the nut to fix the stand.

4. Detachable 5/8-inch adapter with 3/8-inch adapter, suitable for more microphones.
(The washer nut can move back and forth, which can lock the microphone shock mount absorber to your desired angle.)

-2-

5.Storage cable design: microphone cable can be stored in the bracket and fixed.
(Install your own microphone as shown as the picture)

-3-
