

AOKEO
BOOM ARM MICROPHONE STAND

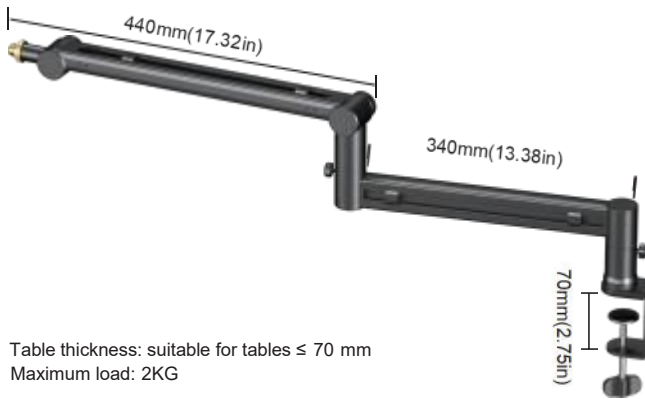

lease read the product manual carefully before use

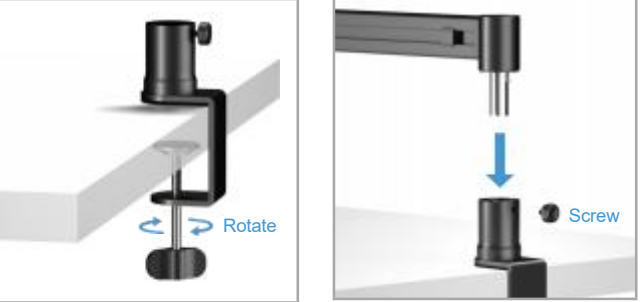

1.PRODUCT LIST

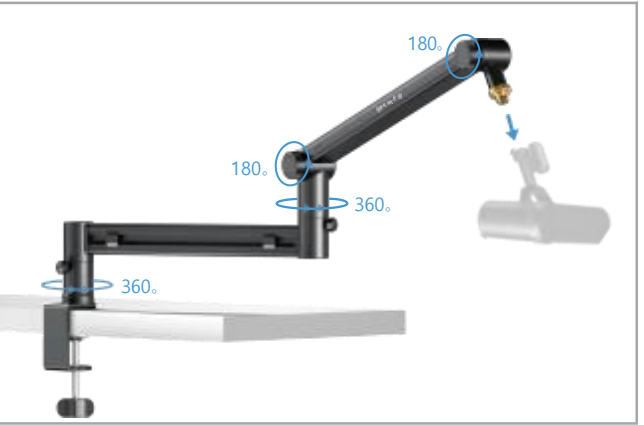

2.SPECIFICATIONS

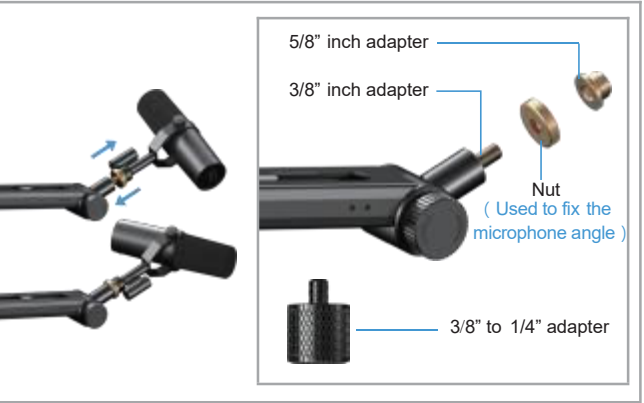

3.INSTALLTION

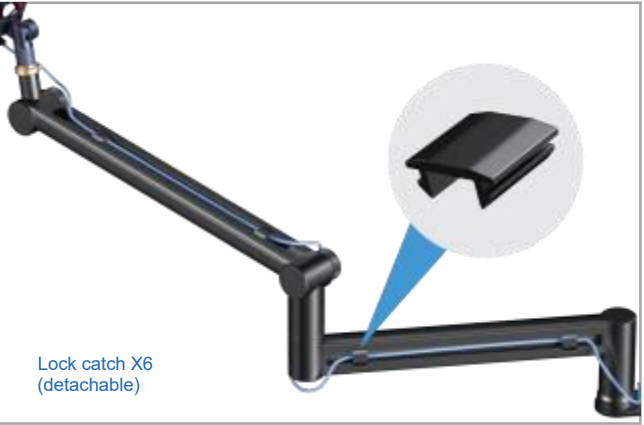

1.Put the stand base on the table and screw it tightly.
2.Insert the microphone stand into the base, and the screws are used to fix the microphone stand.

3.Loosen the knob, adjust the microphone bracket to an appropriate angle, and then install your microphone (the microphone is not included in the product).

4.Select the appropriate adapter and install the microphone (detachable nut, detachable 5/8 inch adapter which can be used to fix the microphone at a certain angle you need).

5.The microphone cable can be placed in the slot to keep it clean during recording (the locking on the microphone stand can be detachable).
